

AB Dynamics plc
("ABD" or the "Group")

Additional manufacturing capacity agreed

AB Dynamics plc (AIM: ABDP), the designer, manufacturer and supplier of advanced testing systems and measurement products to the global automotive industry, is pleased to announce that on 10 June 2014, in order to meet demand, it entered into a 3 year lease for an additional 3,500 square feet of manufacturing space nearby to the Group's existing facility at Bradford on Avon. The additional capacity will be used to expand the Group's Track Testing Systems manufacturing and assembly.

In addition to the Group's recent expansion in workspace announced in November 2013, the new facility will provide an additional 45% of manufacturing space and should provide sufficient headroom in capacity to take the Group beyond the completion date of the Group's new purpose built facility due in 2016 subject to formal planning consents being forthcoming.
